November 5, 2020

Dear Parents/Guardians,

As I reported in the robocalls the past two evenings, we have been notified that a total of two staff members in the elementary school have tested positive for COVID-19. As per the guidance of the Department of Health, it was recommended that the elementary school students move to remote learning for a minimum of five days, and a thorough cleaning of places where the cases spent time be conducted. This cleaning has been completed. Both staff and students who have been in direct contact with these COVID cases have been contacted for further quarantine until November 18th. The Department of Health should provide further communications to these families over the next days. The quarantine applies only to those who were in direct contact with these individuals and not to secondary contacts such as siblings. All other students that have not been contacted will return to school on Monday, November 9th. No one in the high school was in direct contact as per the Department of Health's guidelines, and in-person learning will continue.

Also, please know that we cannot violate HIPAA and reveal specifics about staff members' identities, condition, etc.; however, we will continue to update you as appropriate. It is our goal to keep our students and staff as safe as possible.

Sincerely,

Kimberly J. Zippie
Superintendent
