

COMMODORE PERRY SCHOOL DISTRICT

STUDENT HANDBOOK

2023-2024

The Commodore Perry School District Administration is pleased to present the 2023 - 2024 Student Handbook. This handbook will provide important information regarding rules, responsibilities, policies, and procedures for students in the Commodore Perry School District. The approved District Calendar is included at the end. Because dates for activities, events, and sports are often changed, a monthly year calendar will no longer be printed; however, an accurate, electronic calendar can be accessed on our website at cppanthers.org by clicking the calendar icon in the top right corner.

Hard copies are available upon request at any school or district office. **Please read this material carefully.** Please contact your child's principal if you have any questions or concerns. This handbook is not an all-inclusive list of potential situations and issues. Items may be added which may safeguard students' health and welfare on a case-by-case basis at the discretion of the administration.

SCHOOL ADDRESS

Commodore Perry School District, 3002 Perry Highway, Hadley PA 16130

Website: cppanthers.org

MISSION STATEMENT

To provide every student with a unique education that is inspiring, engaging, rigorous, and relevant in a culture of high expectations, excellence, and respect for all, supported by and in partnership with the community.

VISION STATEMENT

To empower entrepreneurial-minded educators to prepare and graduate innovative students who are critical thinkers, problem solvers, leaders, net-workers, collaborators, and effective communicators who access and analyze information to thrive in a challenging and ever-changing global marketplace.

STUDENT ID CARDS

All students should have an ID card. This card is used to purchase food in the cafeteria, and the library, for ID at school events, for safety reasons and in the future, will be used for other purposes. Students are responsible for ensuring that their ID cards are not lost or damaged. They will be asked to pay a \$5 replacement fee for lost or unusable cards. The fee DOES NOT come out of the student's lunch fund. Student ID cards will be used to purchase lunch and breakfast. This is a rule because of federal reimbursement procedures and to facilitate the quick movement of the lunch line. Whether a student uses his account or not does not matter. A student who does not use his card numerous times will experience consequences. For more information, go to the school's website and select School Policies.

ATTENDANCE GUIDELINES

The mission of the Commodore Perry School District Attendance Guidelines is to encourage and foster improved daily attendance for all students. We ask you to support the Attendance Guidelines so all students can receive a quality education. Regular attendance is a healthy and vital life-long habit that should be nurtured. Perfect attendance is a goal that we should all strive to accomplish. Thank you for your cooperation.

1. Attendance in school is mandated under the Compulsory Attendance laws and is the responsibility of the parent/guardian. Parents/Guardians will be cited and taken before the District Magistrate in cases of unlawful absence for school that exceeds three (3) days. After 10 cumulative days of absence in any given year, students must provide a doctor's excuse within (1) one week. Failure to do so will result in an illegal/unexcused absence. Periodically, parents/guardians are sent attendance update letters when students are missing from school excessively.
2. Compulsory attendance states that a parent or guardian of all children between the ages of six (6) and eighteen (18) is required by the Pennsylvania State Compulsory Attendance Law to ensure their children attend an approved educational institution unless legally excused.

Definitions:

1. Excused Tardy – If a student fails to report to school by 8:01 a.m. but arrives before 9:35 a.m. with a written excuse note from a parent or guardian, the tardy will be excused.
2. Unexcused or Unlawful Tardy – If a student fails to report to school by 8:01 a.m. but arrives before 9:35 a.m., without a written note or the note contains an inexcusable reason, the tardy will be unexcused or unlawful. Should a student miss an entire class period due to tardiness, they will not be permitted to make up work for that class period.
3. Excused and Unexcused Half Day Absence – If a student arrives at school after 9:35 a.m. and before 11:09 a.m., a note must be presented for an excused half-day absence.
4. Excused Full Day Absence – If a student arrives after 11:09 a.m. or does not report to school for the entire day, a note must be presented for an excused day.
5. Unexcused Full Day Absence – If a student arrives at school after 11:09 a.m. or does not report to school for the entire day, the note from the parent/guardian contains a reason that is not excused, or a written excuse is not presented.
6. Excused Temporary Absences (Pennsylvania Code, Title 22, and Chapter 11).
 - a. Personal illness
 - b. Quarantine of the individual or home
 - c. Death in the family (5 days maximum)
 - d. Farm or domestic service work permit.
 - e. Educational Trip (5 days maximum with prior approval)
 - f. Exceptional urgent reasons, such as a house damaged by fire, storm, etc.
 - g. Religious Holiday
 - h. Required Court Appearance
 - i. College Visitation, for seniors only, for a maximum of 3 days with prior approval

Notes:

1. Missing class for a school-related function would not count as a missed period.
2. The school will have an appeal procedure for students and parents/guardians to take into account extended illnesses, injuries, etc.
3. **Student driving privileges may be restricted for any student who is failing a class or classes due to unacceptable attendance and/or absence verification infractions.**
4. **Students with chronic attendance, grade, or lateness concerns may not be permitted to participate in field trips, clubs, or other organizations.**
5. Students will have the number of days absent to make up work missed. Example: 3 days absent = 3 days to make up work.
6. The administration will attempt to notify parents/guardians and students when there is an attendance concern.
7. On the 3rd day of absence, make-up work may be requested. Make-up work will not be given for absences of less than three days.
8. Private transportation problems do not qualify as a legal excuse.
9. Any student who is eighteen (18) years of age or older and is absent from school for ten (10) consecutive days may be removed from the school attendance roster unless the school district is provided a doctor's note.
10. A student must be present before the beginning of the second (2nd) period to participate in or attend any school-sponsored activity for that day unless a medical excuse is presented to the office.
11. Students who make prior arrangements at the office for an unexcused absence may be permitted to make up missed work if the reason for the absence is judged to be worthwhile and/or necessary by the administration. A written statement (forms available in the office) indicating the reason for the absence and the dates involved should be presented to the office at least once a week before the date(s) involved. This includes hunting excuses, etc. When there is doubt, prior approval should be the norm.

12. Breaking the attendance guidelines is considered a misconduct violation by the school district.
13. Students are responsible for contacting their teachers to obtain make-up work for any absence.

DISMISSAL DURING SCHOOL HOURS

Only students with written permission presented to and approved by the office and whose names appear on the absentee report are permitted to leave the building during the school day, and the parent/guardian must pick them up at the school. An exception to this is senior work release students. All students who have permission to leave the buildings must sign out in the office. Failure to do this will result in an illegal absence and other disciplinary consequences.

Attempts should be made to avoid scheduling medical and dental appointments during the school day. However, if a student must leave school early, a note from the parent/guardian **MUST** be provided to the office. Any excuse for an appointment should indicate the name and location of the appointment. When returning to school, the student should bring an appointment card or other official documentation signed by the doctor's office.

ABSENCE VERIFICATION

When a student returns to school after an absence. **THIS WRITTEN EXCUSE MUST BE PRESENTED TO THE OFFICE WITHIN THREE (3) SCHOOL DAYS AFTER THE STUDENT RETURNS TO SCHOOL.** The written excuse must be in accordance with the established attendance regulations to be an acceptable excuse.

RESPONSES TO UNLAWFUL ABSENCES

Habitual truancy negatively impacts a child's school performance and increases the likelihood of juvenile delinquency. An intensive and timely response to truancy is critical in those cases where a clear pattern of habitual truancy is evident. School districts shall not wait until a child has missed an excessive number of days before utilizing punitive measures and involving other systems.

1. **First Unlawful Absence-** Parent/Guardian receives a notice of unlawful absence from the school district. The legal penalties established by the law for violation of compulsory attendance requirements should be attached to the notice. In addition to stating the legal punishments, the name and the telephone number of a school contact person shall be included. Parents/Guardians can then contact a specific person to request assistance in resolving a child's truant behavior.
2. **Second Unlawful Absence-** Parent/Guardian receives a second notice of unlawful absence from the school district. Once again, the legal penalties established by law for violation of compulsory attendance requirements and the name and telephone number of a school contact person should be included. Additionally, another offer of assistance should be made to the parent/guardian.
3. **Third Unlawful Absence-** Parent/Guardian receives a third notice of unlawful absence by certified mail providing "official notice of child's third illegal absence." Attached to this notice will be penalties for violation of compulsory attendance requirements as they pertain to both the student and the parent/guardian who again violates the compulsory attendance requirements shall be liable without further notice. School districts shall coordinate a school/family conference to discuss the cause of the child's truancy and develop a mutually agreed upon School Attendance Improvement Plan (SAIP) to resolve the truant behavior. Issues to be reviewed at the school/family conference include the appropriateness of the child's educational environment, current academic difficulties, physical or behavioral health issues, and/or family environment concerns. At the end of the conference, all parties

should sign a comprehensive SAIP that is agreed to by the school representative, the child, and the parents/guardians and/or family. The plan could include accessing academic and social/health support from the school and community organizations, an outline of family/parent/guardian and student responsibilities, and levels of performance monitoring that include rewards and consequences.

4. **Subsequent Unlawful Absence**- After agreeing to a SAIP, or if there is not agreement on a ~~truancy elimination plan~~ School Attendance Improvement Plan and 3 days have passed since the parent/guardian received the official notice for the child's third illegal absence, if a child is unlawfully absent, at any point within the school year, an official notice of unlawful absence will be sent home. This correspondence aims to inform the child's parent/guardian that the child has again violated the compulsory attendance requirements and advise the parent/guardian that a citation will immediately be sent to the magisterial district judge. To ensure the parent/guardian receives the notice, it is recommended that such a notice be sent through certified mail. After this step, the school is not obligated to inform parents/guardians in writing of absences but it is recommended that the school continues to call the parent/guardian to inform them of additional truant behavior. Schools should refer all future incidents of truancy directly to the magisterial district judge having jurisdiction in the region.
5. **Referral to County Children and Youth Agency**
 - (a) **Children under 13 years of age** – Any child who has not attained the age of 13 who fails to comply with the compulsory attendance requirements and is habitually truant, shall be referred by the school district to the local county children and youth agency for services, which may include addressing the family issues that may be responsible for the child's truant behavior, or possible adjudication as a "dependent" child under the Juvenile Act. The referral to the county children and youth agency may be in addition to proceeding against the parent/guardian by sending the citation to the appropriate magisterial district judge, or a school may decide to refer a family to the local county children and youth agency instead of sending a citation to the appropriate magisterial district judge. If the parent/guardian provides written consent, a copy of the SAIP should be forwarded to the county of children and youth agency.
 - (b) **Children 13 Years of Age and Older** – Any child who has attained the age of 13 who fails to comply with the compulsory attendance requirements and is habitually truant may, in lieu of being prosecuted, be referred by the school district to the local county children and youth agency for services, which may include addressing family issues that may be responsible for the child's truant behavior or, possible adjudication as a dependent child under the Juvenile Act.
 - (c) **Habitually Truant** – The School Code defines habitually truant as absence for more than three (3) school days or their equivalent following the first notice of truancy given after a child's third unlawful absence.
 - (d) **Continued Truancy** – If a child of any age continues to be truant after the above actions have been taken, then school districts are encouraged to file citations with the local magisterial district judge citing the child's continued truancy on a weekly basis. It is imperative that the local magisterial judge be kept informed if truant behavior continues after a plan is in place.
6. **Proceedings and Penalties for Violation of Compulsory Attendance Requirements(24 PS 13-1333 and 1338.1) School Codes** – Every parent/guardian of any child of compulsory school age is subject to penalties if compulsory school-age attendance requirements are not met. While school districts are required to give three days written notice of compulsory attendance before proceeding against the offending party, it is strongly recommended that school districts make a concerted effort to address the cause of child's truant behavior before referring the child to another system.

VACATIONS DURING THE SCHOOL YEAR

The school calendar is designed to give students extended vacations during winter and spring breaks; vacations at other times are discouraged. Parents/Guardians who wish to take children out of school for vacation purposes must, in advance, pick up a “Pre-Approved Educational Trip Form” in the office. The approval form must be completed and returned to the principal at least five (5) days prior to the requested trip. Vacations will only be approved as an excused absence if they are with the child’s parents/guardians. Any other vacations taken will be marked as an unexcused absence. Educational trips during the PSSA and/or Keystone testing window will not be approved. The student is responsible for making arrangements for homework prior to vacation. Please note that even if a vacation is approved, **the days absent will count toward the student’s total days absent from school.**

HOMELESSNESS

McKinney-Vento Homeless Education Assistance Act- Ensuring homeless children and youth have access to free and appropriate public education on an equal basis with their peers.

DEFINITION OF HOMELESSNESS

Children who:

- Reside in a public or private shelter
- Reside in a place not designated for or ordinarily used as regular sleeping or living accommodations (vehicles, campers, motels)
- Reside with the family in a residence of relatives or friends due to lack of housing “doubling up”. · Are runaways
- Are children of migrant workers who lack adequate housing.
- Have been abandoned or are awaiting foster care.
- Are considered “Unaccompanied Youth” – teens living with friends or relatives who do not have guardianship of the student.

Homeless circumstances are usually the result of a: house fire, eviction, domestic violence, divorce, etc. The Commodore Perry School District makes efforts to identify students who meet the definition of homeless. Families and students experiencing homelessness are encouraged to contact the Homeless Liaison to discuss supports the District can provide to the student and family. McKinney-Vento Act

- Schools are to immediately enroll homeless children, even if unable to produce record normally required for enrollment. (medical, academic, proof of residency, etc.)
- Homeless children have the right to attend either their original school (within reasonable distance) or the school in the area in which the student currently resides for the duration of their homelessness or until the end of the school year.
- In a case where the educating district is different than the district where the student is currently residing, both school districts are responsible for the facilitation and cost of transportation.
- Immediately upon enrollment, homeless children are entitled to a free school breakfast and lunch. · Schools are to assist with education needs including school clothing, as well as the facilitation of tutoring, after school programs, and participation in extracurricular activities.

For more information, please see School Board Policy #251 Homeless Students, or contact Chelsee Fulmer, Homeless Liaison, at 724-253-3255 ext 1240

NURSE'S OFFICE

1. **Students will only be admitted to the nurse's office with a pass signed by the teacher or administrator.**
2. **Students are not to go to the nurse's office between classes or during lunch. If a student becomes ill during lunch, a pass may be obtained from the lunchroom supervisor.**
3. All students who take medication during the school day are to give the medication to the school nurse at the beginning of the day. **The medication must be brought to the nurse's office by a parent/guardian. A copy of the prescription or medication form is required with the medication. The prescription should include the student's name, physician, drug dosage and frequency.** The nurse will dispense the medication to the student at the appropriate times.
4. Possession and the use of Asthma Inhalers. In some cases, students may need to carry their inhalers. The following is required for in-school use and is included in the Self Administration form available at the nurse's office.
 - (a) The nurse must be notified following the self-administration.
 - (b) The inhaler/medication will be confiscated, and loss of privileges if the above is abused or ignored. The parent/guardian will be notified, and the inhaler will be in the nurse's office.
5. Students may carry an Epi-Pen with the appropriate physician's order.
6. Physicals are required in grades K, 6 and 11.

ILLNESS DURING SCHOOL

1. Any student wishing to leave school due to illness must report to the nurse's office. The student is not permitted to contact their parents/guardians directly.
2. When the student reports to the nurse's office, the nurse will call to receive permission from a parent/guardian or an authorized person, according to the student's emergency card, for that student to leave school. If such a person cannot be contacted, the student will not be permitted to leave the school. All students must submit an emergency information card annually to update the information to current contacts as needed throughout the year.
3. Students are absolutely forbidden to leave the school grounds without permission from the nurse or administrator.
4. When permission is given for a student to leave school, the student must go to the High School or Elementary Office.
5. Students sent home during the school day due to illness will not be permitted to attend or participate in after-school events.

CONFLICT RESOLUTION – PROPER PROCEDURE

When parents/guardians feel their child is having difficulties in school, they should use the following procedures for obtaining corrective action:

1. If the situation is related to a teacher, an appointment should be made with the teacher to discuss the concern.
2. If the situation is related to a teacher and cannot be resolved with teacher contact, an appointment should be made through the principal for a conference with the teacher involved.
3. If the situation is other than teacher-related, the parent/guardian should contact the principal.
4. If satisfaction is not obtained at the teacher or principal level, then the parent/guardian should contact the superintendent of the schools. After three levels have been exhausted, parents can always appeal to the president of the board of education. The board of education has strongly endorsed these procedures and recommends that parents/guardians observe the suggested processes.

CANCELLATION OF SCHOOL OR CHANGE OF EDUCATIONAL DELIVERY

If school has to be canceled or delayed for the day because of weather conditions, bus drivers, teachers, parents/guardians, and students should tune in to the following radio stations between the hours of 6:00 & 8:00 a.m. TV: WFMJ, WKBN, WYTV. Robocalls and emails will be sent by 6:30 AM to all families/guardians that are registered through the school district. (Changes and updates may be made through the elementary and high school offices.) Families/guardians may also register to receive text message alerts through WFMJ as soon as the delay/cancellation is posted. The link to register is: <http://www.wfmj.com/link/708626/text-alerts>.

Flexible Instructional Days

If it is necessary to close the school for any reason, i.e., inclement weather, a building facility issue, etc., the CPSD has been approved by the PA Department of Education (PDE) for five (5) Flexible Instructional Days (FID). In order to use a FID, the PDE requires us to do three things: take attendance, assure everyone has access to learning, and provide access to health care/resources. Within the first month of school, a FID folder will be sent home with each student with five days of assignments for each class they attend.

Parents/Guardians are asked to PLEASE keep the folder in a safe place so it can be used in case of an emergency school closure. Most teachers will also post assignments on their Google Classroom pages for students with access to electronic devices. Teachers will advise parents/guardians if they will not post on their Google Classrooms.

Students must do the following to meet the PDE's requirements:

Attendance: Students must record attendance by 8:00 AM using one of the following ways depending on the availability of technology: 1. Login to your homeroom Google Classroom to report attendance. 2. Text the student's name to elementary teachers via REMIND (contact your student's teacher if you have not signed up for REMIND). 3. Call 724-253-3255 to record the student's name: Ext. 1230 for Elementary; Ext. 1221 for High School; Ext. 1240 if other voice mailboxes are full.

Access to learning: 1. Complete assigned work with hard copies provided in the FID folders OR electronically via Google Classroom if the student has access to technology. 2. Teachers will be available via email throughout the day to answer questions. Special Google Meets may be scheduled upon request. (Unfortunately, if there are power/internet outages, teachers may not be available through any technology.) If a teacher is not available to answer questions, or a student does not have a way to contact the teacher, leniency

will be granted in the completion of the assignment by alerting the teacher to the concern the day the student returns. 3. All assignments must be submitted the next day of in-person learning. Access to Health Care/Resources Contact the school nurse, Mrs. Peterson, to discuss concerns or questions by email at mpeterson@cpanthers.org OR phone at 724-253-3255, Ext. 1229 and leave a message. She will return your call as soon as possible.

INCOMPLETE GRADES

When a student in grades 7 or 8 receives an unsatisfactory (failing) grade for the year in the equivalent of two (2) or more academic credits, they will be required to repeat the grade or complete credit recovery through private tutoring at their own expense. Students in grades 9-12 will be scheduled to make up the required subject that has not been satisfactorily completed on an individual basis.

During a grading period, if a student does not do or complete the work necessary to satisfactorily make progress in the course, the student is assigned a final grade of incomplete. Students are encouraged to work with the teacher to complete work in order to receive a grade.

HIGH HONOR/HONOR ROLL

High School

An Honor Roll will be completed at the end of each grading period. To be eligible, students must meet the following criteria:

1. Carry five (5) full-time (5 days a week) subjects.
 2. Receive no D, F or Incomplete grades.
 3. Career Center grades will count double because of the three (3) credits.
- HIGH HONOR (4.0 AVERAGE) No grade lower than a B (I would like to look at these averages and letter grades)
 - HONOR (3.33 AVERAGE) No grade lower than a C (I would like to look at these averages and letter grades)

An Honor Roll will be completed at the end of each 9 weeks. To be eligible, students must meet the following criteria:

1. Received all A's and B's
2. Receive no C, D, F, or Unsatisfactory (U) grades.

ALMA SIS (STUDENT INFORMATION SYSTEM)

Alma is a grading software that permits parents/guardians and students to view their grades and check on assignments that have been completed or are due. Grades will be updated weekly by teachers and can be viewed from any device that has internet access. All students and parents/guardians will be given information on how to access and use their Alma grade book accounts. Once you have activated your account, and the teaching staff has posted information, you can use Alma to view up-to-date information on your child's progress. If you do not have internet access, or want to receive information by other means, please contact the Guidance Office, Elementary Office, or leave a message with individual teachers.

BUS LOADING PROCEDURES

It is the drivers' responsibility to establish a regular schedule within a reasonable range of time. (That range will increase, of course, in extreme weather or when there are problems with the bus itself.) Drivers are not permitted to wait for students at pick-up points. It is unlawful for a bus to hold up traffic. Also, a bus that waits for one child will be late for the next child and all subsequent children. Parents/Guardians are responsible for having their children at the bus pick-up points on time. Parents/Guardians also should instruct their children to stay back from the road until the bus is fully stopped and the lights are flashing. This is especially important in bad weather. With young children, parents/guardians should help form good safety habits; they should talk to their children about situations that may arise; what to do if a pet comes out to the bus, if school papers blow out of the child's hand and under the bus as the driver is pulling away, or if a stranger tries to pick the child up. Children should be instructed to go directly home when departing the bus.

It is very difficult for drivers to keep track of their children if they do not follow a safe daily routine. It is important that parents/guardians support the bus driver and principal when dealing with the misconduct of students. We are concerned for the safety of our children.

BUS REGULATIONS

*Cameras may be used to assist bus drivers

The student bus-riding regulations are as follows:

1. Keep seated while the bus is traveling; be seated with your feet on the floor, and do not board or leave while the bus is in motion.
2. Arms, head, and hands are to be kept inside the bus.
3. After leaving the bus, pupils who must cross the road are to walk in front of the bus. Cross the road only after the bus driver has given you a signal.
4. Shoving, pushing, profane and obscene language, smoking, drinking, and eating are prohibited.
5. Vandalizing (marking or writing on the seats or bus walls, removing screws, bolts or nuts; pushing on the backs of the seats in front of the student, etc.) and littering are prohibited.
6. Students must obey all requests and directions given by the bus driver or bus patrol members.
7. Keep laughter and talk at a low level.
8. Be ready when the bus arrives and board promptly.
9. Transportation by the school bus should be considered a privilege, not a right.
10. Students must follow the directions of the driver at all times.

The Commodore Perry School District will provide transportation to all qualifying students in accordance with State guidelines and mandates. Students will be assigned to both a specific bus and bus stop. All students are only permitted to ride the bus they have been assigned and must get on and off at their assigned stop. Requests to ride alternate buses for the reasons such as visiting a friend, relative, or various student lessons will not be granted.

Reassignment for the Purpose of Child Care: The district recognizes the need of many parents/guardians for alternate pickups or drop-offs due to the necessity of child care. Therefore, allowances will be made for parents/guardians desiring a permanent alternate stop. This means that a child may be picked up and dropped off at a location other than the child's residence or even picked up at one location and dropped off at another.

Requests for such allowances must be made in writing by the parents or guardians, with each request being reviewed by the Superintendent individually. For example, a student may not be picked up or dropped off at one location two days a week and at a different location the remaining three. In either case, any change must be the same for every day of the week. The only exception will be for a physician's documented ongoing medical condition. Additionally, each request will be granted in accordance with the following criteria:

1. The request can be accommodated with the current bus route and does not extend the existing route.
2. There is space on the vehicle of the alternate route being requested.
3. The requested change does not increase the cost to the School District.

Riding a school bus in Pennsylvania is a privilege and not a right. Students who violate the bus riding rules, under the guidelines set forth by the School Board Policy, may be suspended from riding the bus. The driver's responsibility involves notifying the building principal of any violations of bus regulations. The building principal will inform the parent/guardian by phone of any bus discipline. The principal shall report all cases of suspension from bus riding by phone or visitation to the parents or guardians of the child involved and to the superintendent. Suspension from bus riding may begin immediately after parent/guardian notification but must begin no later than 24 hours after notification. In addition to the penalties imposed by the Discipline Code,

the following additional penalties may be imposed if a disciplinary infraction occurs while a passenger is on a school vehicle:

1. First report – warning: principal-student and/or in-school consequence
2. Second report – conference with principal, driver, parent/guardian or in-school consequence
3. Third and subsequent reports may lead to conferences, detentions, in-school consequences, and/or suspension from the bus. A copy of the bus misconduct will be sent home for the parent/guardian's signature to be returned to the office.

Cameras may be utilized on buses transporting students to help ensure student safety. These cameras may record audio and video, and may be used by administration for security purposes and to assist with disciplinary actions where applicable.

Cell phones are not to be out or used during class time except with teacher permission for academic purposes. Students may be required to place their personal electronic devices in a container in the front of each classroom at the beginning of each period unless the teacher specifies otherwise. **Phone calls on personal electronic devices are not permitted unless authorized by administration.**

Violations of this procedure will result in:

 - b. Second violation - The device will be confiscated, and a parent or guardian must pick it up at the office.
 - c. Third violation and further - The device will be confiscated and returned to the parent or guardian. The student will be issued a day of in-school suspension.

permission will result in confiscation of the device and deletion of the picture or video. Unauthorized posting of pictures and video/audio recordings to the internet **is punishable by law** and under Level III or above of the school discipline code.

14. Elementary students are not permitted to have or use cell phones during school hours. The phone must be turned off and stored in the student's locker.

SEE ELECTRONIC DEVICES POLICY #237 on the District website under DISTRICT and SCHOOL BOARD tab.

COMPUTER INTERNET POLICY

The Computer Internet Policy (CIP) is a form all students are required to turn in before they are permitted access to the District's computer systems. The Parent(s)/Guardian(s) and the student(s) are required to read and sign this form. The form is both for the safety of the District and the students. It explains the basic guidelines of student activity on the District's computer systems. It also explains many parts of the District's network that the students use, including the need for a web content filter. For more information, go to the school's website and select School Policies.

GRADUATION PROJECT

Completing a Senior Graduation Project and Exit Interview are requirements for graduation from the Commodore Perry School District. Due to current changes made to graduation requirements by the PA Department of Education, further information will be provided by the high school administration and guidance department.

Failure to complete the Senior Graduation Project and Exit Interview will result in a senior not graduating or participating in the graduation ceremony. A time to complete this activity/project will be arranged with the administration following the graduation ceremony.

In addition to the Graduation Project, the state of Pennsylvania requires specific graduation requirements. The guidance counselor and administration will work with students on the completion of this requirement.

These dress code regulations should be considered as clothing purchases are made for the following school year. The purpose of this dress code is to set standards of reasonable dress that will promote a learning environment that is safe and free from unnecessary distractions while maintaining an appropriate academic decorum:

The Commodore Perry School District has adopted a weapons policy in an attempt to safeguard the school community and in an attempt to provide safer schools. In doing so, students are prohibited from possessing any type of weapon while under the jurisdiction of the school.

Weapons will include, but are not limited to any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle, replica of a weapon, and any other tool, instrument or implement capable of inflicting serious bodily injury.

State law, and school district policy, call for a mandatory one-year expulsion from school and law enforcement notification of any student possession of a weapon.

BULLYING/CYBERBULLYING PROCEDURE

The Board of School Directors for the Commodore Perry School District is committed to providing a safe, positive learning environment for district students. The Board recognizes that bullying creates an atmosphere of fear and intimidation, detracts from the safe environment necessary for student learning, and may lead to more serious violence. Therefore, the Board prohibits bullying by district students.

Bullying is unwanted, aggressive behavior that involves a real or perceived imbalance of power. The behavior is repeated over time. Bullying includes cyberbullying. The Board prohibits all forms of bullying by district students. The Board encourages students who have been bullied to report such incidents to the building principal or designee promptly. The Board directs that complaints of bullying shall be investigated promptly and corrective action shall be taken when allegations are verified. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations. No reprisals or retaliation shall occur as a result of good faith reports of bullying. Each student shall be responsible to respect the rights of others and to ensure an atmosphere free from bullying.

A student who violates this procedure shall be subject to appropriate disciplinary action consistent with the Code of Student Conduct, which may include:

- Counseling within the school
- Parent/Guardian conference
- Loss of school privileges
- Transfer to another school building, classroom, school bus, or alternative school setting
- Exclusion from school-sponsored activities
- Detention
- Suspension
- Expulsion
- Counseling/Therapy outside of school
- Referral to law enforcement officials

Reporting Bullying We expect all students to treat each other with respect, help those who are bullied/harassed, include students who are left out, and report incidents of bullying to teachers and administration.

Complaints of bullying shall be investigated promptly, and corrective action shall be taken when allegations are verified. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations.

DISCIPLINE CODE

Effective operations require effective guidelines. Such guidelines, in addition to being mandated by the State, are especially important for students to establish a sense of acceptable behavior.

The purpose of the guidelines, which were developed by a joint committee of faculty, students, administrators, and parents/guardians, are the following:

1. To ensure an understanding by parents/guardians and students of what is acceptable behavior, as well as, what actions will be taken for infractions of these rules.
2. To ensure that teachers and students using the guidelines can establish an appropriate classroom environment.
3. To ensure consistency and equality of treatment for all students.
4. To protect students from other students who abuse the rights afforded to them.
5. Ensure parents/guardians and students understand the processes leading to disciplinary action.

These guidelines are intended to cover discipline problems at all age levels in school. You may find some of the guidelines irrelevant because of the student's age.

The Pennsylvania State Police may be contacted by the administration any time there is an infraction that may result in a citation or need for additional input on a possible violation of state or local statutes.

RULES GOVERNING STUDENT PARTICIPATION IN SCHOOL ACTIVITIES/ELIGIBILITY

1. Per Board policy, athletic eligibility will be generally determined according to PIAA standards. Areas where local policy is more stringent than PIAA standards, are listed in the paragraphs below.
2. To be eligible, a student must pass a minimum of four (4) full-time credit courses in the previous marking period to be eligible during the current grading period.
3. In cases where the student doesn't meet the above criteria, the student will be ineligible for the first fifteen (15) school days of the new grading period, beginning on the day that report cards are issued.
4. A student failing two or more subjects in a given week is not eligible the following week. Eligibility is determined on Monday morning. A student found to be ineligible cannot participate in any competition from Monday afternoon through the following Saturday.
5. The Athletic Director will notify the coach of ineligible athletes and marginally eligible athletes on their team via an email on the Monday the athlete is found to be ineligible. The coach will notify each ineligible athlete of the eligibility status for the week. Marginally eligible athletes are failing one course in a given week.
6. Students who arrive at school after the start of 2nd period without a doctor's excuse will not be eligible to practice or compete on that day. If an athlete comes to school by the start of 2nd period and is subsequently sent home by the nurse, the athlete may not participate in practice or competitions after school that day.
7. Students who arrive at school after the start of 2nd period on Friday without a doctor's excuse will not be eligible to practice or compete on Friday or Saturday.
8. Students are considered in attendance if: 1) they are on a school-sponsored field trip; 2) they have a pre-approved absence due to a medical appointment with a written excuse presented to a school administrator; 3) they are attending a family funeral; 4) they are responding to a family emergency; 5) they are on an approved college visit, or 6) they are performing an approved job shadow.
9. Per Article III Section 3 of the PIAA By-Laws, "A student who has been absent from school during a semester for a total of twenty (20) or more school days, is ineligible to participate in an Inter-School Practice, Scrimmage, or Contest until the student has been in attendance for a total of forty-five (45) school days following the student's twentieth (20th) day of absence."
10. Ineligible athletes may practice with their teams unless otherwise notified.

11. Ineligible athletes may not ride the bus to away contests.
12. An athlete ejected from a contest by a PIAA official will be ineligible for at least the next contest of the same level. (i.e., If an athlete is ejected from a JV game, the athlete can't participate in the next JV contest but may participate in a varsity level contest if otherwise eligible.)
13. Athletes and cheerleaders must travel on the bus to away contests with the team. Coaches may allow a parent/guardian to sign out their athletes for the return trip.

LOCKERS

The locker is property of the Commodore Perry School District and is provided to the student for storing school-related items and clothing. The school is obligated to ensure that the locker is used properly and that no item in the locker jeopardizes the protection of the health, safety, and welfare of the students, faculty, school property, and educational process. To fulfill this obligation, school officials have the right to conduct locker searches. **Students should not expect privacy from school searches of lockers as outlined in the handbook under Right to Search.** Locker searches may be conducted without any regard for any individualized suspicion. Should any item that violates school policy be found in the locker, the item(s) will be immediately confiscated, and appropriate disciplinary proceedings will be instituted against the student per the discipline policy outlined in this handbook.

Each student is assigned their own locker. Students are not permitted to share lockers with any other student. Students are not to move to other lockers without permission. Lockers are the school district's property and can be searched properly at any time by school officials. It is recommended that the lockers be used infrequently during the school day to prevent students from being late to class. An appropriate schedule might be before class in the morning, at lunch, and at dismissal time. It is recommended that students not bring large sums of money or valuables to school. Students are encouraged to use a lock on their locker. If the student wishes to use a lock, the combination or key to the lock must be provided to the office before the lock is placed on the locker. This includes lockers used in our boys' and girls' locker rooms.

RIGHT TO SEARCH

At no time does the Commodore Perry School District relinquish control of hallway lockers, physical education lockers, or any other part of the school building or property. School officials reserve the right to search school property at any time. These searches may encompass all items stored in lockers or any other area of the school property. In addition, school officials have the right to search students, their direct possessions and automobiles parked on the property if there is reasonable suspicion that the student is in violation of any school rule or policy, or poses a threat to themselves or others while on school property. Searches may include but are not limited to the utilization of a certified police drug detection dog, metal detection units, or any other device deemed useful in protecting the school population's health, safety, and welfare. A student who refuses the request for a search by an administrator that is proper and reasonable may be disciplined under the district's discipline policy. An administrator may seize any evidence indicating that a student is violating or has violated the law or school rule that the administrator may find as a result of a search of a student's property, clothed body or areas designated for a student's use if the search is proper and reasonable. **Students should remember to leave personal items of value at home and not in their lockers. If you find it necessary to bring such items to school, you should make arrangements to leave them in the office.**

Refusal to be searched: A student who refuses the request for a search by an administrator that is proper and reasonable may be disciplined under the district's disciplinary policy. Action may include suspension or referral to the board for an expulsion hearing.

Expulsion Exception: The Chief School Officer (or his/her designee), on an individualized case basis, may appeal to the board in writing, requesting that the action called for in the Commodore Perry School District's discipline policy may be changed or adjusted based on extenuating and mitigating factors of the individual case directly related to the policy.

EVENING AND ATHLETIC EVENTS

Students are encouraged to come to as many evening events as they can attend. However, students should be in the gym/auditorium during the event. If someone insists on loitering in the halls or doorways, they will be asked to leave the building. **Students are required to be in school that day if they plan to attend an evening event.**

Events sponsored by Student Organizations

1. The event must be approved by the organization advisor and the Principal.
2. Evening event (grades 7-12): 7:00 – 10:00 pm.

The winter and spring concerts are a unique and integral part of the instrumental and choral music courses; attendance at these two (2) concerts is a course requirement. A student absent without an acceptable verifiable excuse may have their respective music grade lowered up to twenty-five percent during the reporting period in which the absence occurred. However, a student who is deliberately absent from a winter or spring concert may, with the concurrence of the high school principal, receive a grade of "F" during the reporting period in which the absence occurred.

FIRE/TORNADO DRILLS

Fire drills will be conducted as required by state law, in order to know how to exit the building in an orderly manner. Records show that more people are injured in fires because of panic or being trampled than by the actual fire itself. In each room, you will find instruction sheets posted advising teachers and students of the procedure that needs to be followed in case of fire or tornado. It also directs each room to the proper safe location.

1. Be calm and orderly.
2. At the sound of the fire signal or tornado alarm – all work must cease instantly.
3. Pupils will walk out of the room as directed by the teachers.
4. Students will follow the procedures provided by the teachers.
5. Silence is absolutely necessary. Students will be QUIET.

GUIDANCE DEPARTMENT SERVICES

GUIDANCE AND COUNSELING PROGRAM

The Commodore Perry High School has one secondary counselor to serve grades 7 through 12. The school counselor is available to assist all students by providing counseling, consultation, information, recordkeeping, assessment, referral, academic, and post-high school planning services. The purpose of the school counselor is to aid students in making wise academic choices, acquiring positive social and emotional attitudes, and seeking the information necessary to plan appropriately for the future.

The counselor provides students with the necessary information about scholarships, financial aid, college selection and application, apprenticeship, and employment opportunities. Students are encouraged to be proactive in utilizing the information system provided to access as many services as possible.

A program of studies is developed each year to assist students in selecting academic classes. This information, including course descriptions, credit requirements, and scheduling deadlines, is provided to the students through large group meetings, classroom presentations, and individual consultation.

It is the school counselor's responsibility to maintain accurate records of each student's achievement, ability, interests, and attendance. Transcripts are created and forwarded by written request.

Students are encouraged to apply for college admission in the early fall of their senior year. Information about careers, post-secondary programs, armed services, applications, and financial aid is available in the guidance office.

The school counselor provides individual counseling, makes referrals to outside agencies, and coordinates the SAP Team program.

By providing information to students and parents/guardians, maintaining information about the students, and guiding students through their decision making process, we can help each student to make wise, responsible and appropriate choices.

TUTORIAL INSTRUCTION

Tutoring arrangements will be authorized by the administration for the following:

1. To help students who need a little extra help in a class they are currently taking, or
2. To use as means of making up a class that has been failed, or
3. To attempt to improve a final grade of “D” or “F” when a “C” or better is a prerequisite for the following course.

Note: To make up a failed semester subject, a student will need to complete 15 tutoring hours. A full–year subject would require 30 tutoring hours. Students completing original credits must complete 30 tutoring hours to earn .5 credit and 60 tutoring hours for (1) credit. Only (2) credits may be earned during a school calendar year (September-August). Courses that can be scheduled in a student’s schedule must be completed in the school rather than with a tutor during the school year or the following summer. Tutors should speak with the subject teacher to secure available materials and input as to the appropriate subject matter to be covered. The Superintendent shall be responsible for approving all persons and programs of tutorial instruction that are to be utilized for remediation and original credit. The tutoring guidelines are available at the high school office.

PUBLIC NOTICE ON SCREENING AND EVALUATION

The school district uses the following procedures for allocating, identifying, and evaluating specific needs of school-age students requiring special programs or services. These procedures as required by law, are as follows:

The district, as prescribed by section 1402 of the School code, routinely conducts screenings of a child's hearing acuity in the following grades: kindergarten, 1,2,3,7 and 11. Visual acuity is screened in every grade. Speech and language skills are screened in kindergarten, 1, and 3 on a referral basis. Height and weight are screened yearly, as is BMI measurement. Scoliosis is screened in grades 6 and 7. Gross motor skills, academic skills, and social-emotional skills are assessed by classroom teachers on an ongoing basis; specified needs from all of these screening sources are noted within the child's official file. School records are always open and available to parents/guardians and only to school officials who have a legitimate need to know information about the child.

Information from the records is available to other persons or agencies only with appropriate authorization that involves written signed permission by a parent/guardian. Parents/Guardians with concerns regarding their student may contact the special education coordinator or building principals at any time to request a screening or evaluation of their child. Communications with parents/guardians and exceptional students shall be in English or native language of the parents/guardians.

Screening information will be used by the instructional support or SAP Team within the student's school to meet his/her specific needs or to document the need for further evaluation. If it is determined that a child needs additional services, the Child Study Team will make adjustments relative to such areas as the child's learning style, behavior, physical disabilities, and speech problems to be more in keeping with traditional classroom experiences. If a student does not make progress, parents/guardians will be asked to give written permissions for the further individual professional evaluations.

After all the evaluations are completed, a comprehensive evaluation report will be compiled with parent/guardian involvement and include specific recommendations for the types of intervention necessary to deal with the child's specific needs. Parents/Guardians are then invited to participate in a meeting where the results of the multidisciplinary evaluation will be discussed. An Individual Education Program (IEP) will be developed for specialized services for the student.

The school district IEP team will consist of at least three of the following district staff: the special education coordinator, the building principal, the special education teacher, the regular education teacher(s), the district psychologist, other teachers, or specialists as needed and other administrative staff when appropriate.

Parents/Guardians may request that the district initiate a screening or evaluation of their student's specific needs at any time by contacting the special education coordinator or building principals. Further information about these procedures may be obtained by calling Dr. Stacy Payne at 724-253-2232.

Parents/Guardians are an integral part of the IEP team and need to be physically present at the IEP meeting. The district will make every effort to ensure parent/guardian participation. The district will notify the parents/guardians in writing, make documented phone calls, and make home visits if necessary to make parents aware of the IEP conference and the need for parent/guardian participation. Parents/Guardians are then presented a Notice of Recommended Assignment (NORA) with which they may agree or disagree. If parents/guardians disagree with the recommended program, the issue may be taken to mediation or a due process hearing.

Information about early intervention, parent/guardian rights, mediation or due process procedures, specific special education services and programs offered by the district, and the district's educational records policy is available upon request from the building principal in a child's school.

CHAPTER 15 PROTECTED HANDICAPPED STUDENTS

A protected handicapped student is a student who is of school age with a physical or mental disability that substantially limits or prohibits participation in or access to any aspect of the school program. In compliance with state and federal law Section 504 of the Rehabilitation Act of 1973, the district will provide to each protected handicapped student without discrimination or cost to the student or family those related aids, services or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum extent appropriate to the student's abilities. These services and protections for "protected handicapped students" are distinct from those applicable to all eligible or exceptional students enrolled (or seeking enrollment) in special education programs. For further information on the evaluation procedures and provisions of services to protected handicapped students, contact Mrs. Mandy Palko at 724-253-2232.

CONCLUDING STATEMENT

The Board of Directors acknowledges that conduct is closely related to learning and that an effective instructional program requires a wholesome and orderly school environment. The board, administration, and staff shall require each student of this district to adhere to these rules and regulations and to submit to such disciplinary measures as are appropriately assigned for infraction of these rules. The code prescribes minimum steps to be followed for offenses. The board, administrators, and staff may impose more stringent penalties in exceptional situations. The rules shall govern student conduct, including all school activities and during the time spent in travel to and from school.

Family Educational Rights and Privacy Act

The federal statute entitled the Family Educational Rights and Privacy Act (“FERPA”) requires that the District, with certain exceptions, obtain your written consent before disclosing personally identifiable information from your child’s education records. However, the District may disclose appropriately designed “directory information” without prior written consent unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child’s education records in certain school publications. Examples include:

- A playbill showing your student’s role in a drama production
- The annual yearbook
- Honor roll or other recognition lists
- Graduation programs
- Sports activity sheets, such as for wrestling, showing weight and height of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent/guardian’s/eligible student’s prior written consent unless the parent/guardian or eligible student has advised the District that they do not want the information disclosed without their prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. The District has designated the following information as directory information:

- Student’s name
- Telephone listing
- Photograph
- Major field of study
- Grade level
- Weight and height of members of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency, or institution attended
- Enrollment status
- Other similar information that would not generally be considered harmful or an invasion of privacy if disclosed
- Address
- Electronic mailing address
- Date and place of birth
- Dates of attendance
- Participation in officially recognized activities and sports
- Live-Streamed events

Directory information does not include a student's (1) Social Security number, or (2) student identification (ID) number, user ID, or other unique personal identifiers used by the student for purposes of accessing or communicating in electronic systems, except those identifiers may be included in "directory information" if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as personal identification number (PIN), password or other factor known or possessed by the authorized user.

NOTE:

Parents/Guardians and eligible students may not use their right to opt-out of directory information disclosures to prevent the District from requiring students to wear student identification badges or cards that display information that may otherwise be designated as directory information. If a parent/guardian or eligible student has an objection to wearing student identification badges, the reasons for the objection should be articulated to the Administration and will be dealt with on a case by case, consistent with applicable Pennsylvania and federal laws.

In addition, section 8528 of the Every Student Succeeds Act requires that the District shall provide access to secondary school students' names, addresses and telephone listings upon requests made by military recruiters or institutions of higher education unless the parent/guardian has advised the District that they do not want their student's information disclosed without their prior written consent.

If you do not want the District to disclose directory information from your child's education records or disclose the above-listed information to recruiters from the military or institutions of higher education without your prior written consent, you must notify the District in writing by September 8, 2023.

Questions or written requests should be directed to Mr. Kenneth Jewell, Superintendent, 3002 Perry Highway, Hadley, PA 16130, 724-253-3255.

Notification of Rights Under the Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians and students who have reached the age of 18 years or who attend a post-secondary institution ("eligible students") certain rights with respect to the student's education records. These rights are:

- 1. The right to inspect and review the student's education records within 45 days of the day the District receives request for access.** Parents/Guardians or eligible students should submit to the school principal (or other designated school official) a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent/guardian or eligible student of the time and place where the records may be inspected.

Please note records of the District's law enforcement unit (the District's school police force) created by the law enforcement unit, were created for a law enforcement purpose and are maintained by the law enforcement unit, are not "education records" within the meaning of FERPA.

- 2. The right to request the amendment of the student's education records that the parent/guardian or eligible student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.**

Parents/Guardians or eligible students who wish to ask the District to amend a record should write to the school principal (or appropriate school official), clearly identify the part of the record they want to be changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent/guardian or eligible student, the school will notify the parent/guardian or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the

hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

3. The right to provide written consent to disclosures of personally identifiable information in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. While you may request a listing of all of the exceptions, the three most common of these exceptions to the prior consent rule are as follows:

- a. The District may disclose education records to “school officials” with “legitimate educational interests” without obtaining the prior consent of parent/guardian). A “school official” is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer or a person or company with whom the District has contracted to perform a special task or who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records, such as an attorney, auditor, medical consultant, insurer, therapist or student teacher; or a parent/guardian or a parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee; or a parent/guardian, student or other volunteer assisting another school official in performing their tasks. A school official has a “legitimate educational interest” if the official needs to review an education record to fulfill their professional responsibility.
- b. Upon request, the school will disclose education records without consent to officials of another school district in which the student seeks or intends to enroll or is already enrolled if the disclosure is for the student’s enrollment or transfer.
- c. Unless directed otherwise in writing by eligible students or parents/guardians, the District may disclose without consent “directory information,” which consists of the following: the student’s name, address, telephone number (unless indicated as unlisted), date and place of birth, electronic mailing address, dates of attendance, grade level, photograph, major field of study, degrees, honors and awards received, the most recent previous educational agency or institution attended by the student, enrollment status, weight and height of members of athletic teams and other similar information that would not generally be considered harmful or an invasion of privacy if disclosed. For more detailed information regarding directory information, see below.

NOTE: Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information and disclosures to the parents/guardians or eligible students, FERPA requires the District to record the disclosure. Parents/Guardians and eligible students have a right to inspect and review the record of disclosures.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

SERVICES AND PROGRAMS

It is the responsibility of the Pennsylvania Department of Education to ensure that all children with disabilities residing in the Commonwealth, regardless of the severity of their disability, and who are in need of special education and related services, are identified, located, and evaluated. This responsibility is required by a federal law called the Individual with Disabilities Education Act (IDEA). The IDEA requires each state educational agency to publish a notice to parents/guardians in newspapers or other media before any major identification location or evaluation activity. The IDEA requires this notice to contain certain information. Pennsylvania law requires each school district to fulfill this notice requirement by providing an annual public notice.

The school district is required by the IDEA to provide a free appropriate public education to children with disabilities who need special education and related services. Pennsylvania has adopted state laws which conform with the IDEA and which school districts must follow. In Pennsylvania a school age child with disabilities who needs special education and related services is identified as a child with a disability. Students are exceptional if they need specially designed instruction and have one or more of the following physical or mental disabilities:

- Autism/Pervasive Development Disorder
- Orthopedic Impairment
- Deaf-Blindness
- Other Health Impairment
- Deafness
- Specific Learning Disability
- Emotional Disturbance
- Speech or Language Impairment
 - Hearing Impairment
- Traumatic Brain Injury
- Intellectual Disabilities
- Visual Impairment Including Blindness
- Multiple Disabilities

In Pennsylvania, students also qualify as exceptional if they require specially designed instruction and are determined to be mentally gifted. Also, school districts are required to conduct child find activities for children who may be eligible for gifted services via 22 PA Code Chapter 16. For additional information regarding gifted services, the parent may refer to 22 PA Code Chapter 16. If a student is both gifted and eligible for Special Education, the procedures in IDEA and Chapter 14 shall take precedence.

EARLY INTERVENTION

IDEA requires the provisions of a free appropriate public education (FAPE) to children with disabilities between 3 years of age and the school district's age of beginners. In Pennsylvania, a child between 3 years of age and the school district's age of beginners who has a developmental delay or one or more of the physical or mental disabilities listed above is identified as a child with a disability. Developmental delay is defined as a child who is less than the age of beginners and at least three years of age and is considered to have a developmental delay when one of the following exists: (i) the child's score, on a developmental assessment device, an assessment instrument which yields a score in months, indicates that the child is delayed by 25% of the child's chronological age in one or more developmental areas, or (ii) the child is delayed in one or more of the developmental area, as documented by test performance of 1.5 standard deviations below the mean on standardized tests. Developmental areas include cognitive, communicative, physical, social/emotional and self-help. For additional information you may contact the Early Intervention Program Supervisor at Midwestern Intermediate Unit IV, 453 Maple Street, Grove City, PA 16127 or (724) 458-6700.

SCREENING

Each school district must establish and implement procedures to locate, identify, and evaluate students suspected of being exceptional. These procedures include screening activities, which include but are not limited to: review of group-based data (cumulative record, enrollment records, health records, and report cards); hearing screening (at a minimum of kindergarten, special ungraded class, first, second, third, seventh, and eleventh grades); vision screening (every grade level); motor screening; and speech and language screening.

In schools which have an Instructional Support Team (IST) or child study team or Multi Tiered System of Support (MTSS), the above screening activities may be a consideration used by these teams as another level of screening. Parents/Guardians and members of the professional staff of the student's school have the right to request screening by the IST or child study team.

Except as indicated above or otherwise announced publicly, screening activities take place in an ongoing fashion throughout the school year. Screening is conducted in the student's home school unless other arrangements are necessary. Telephone numbers and addresses can be found at the end of this notice for more information.

EVALUATION

When screening indicates that a student may be exceptional, the school district will seek parental/guardian consent to conduct an evaluation. "Evaluation" means procedures used to determine whether a child has a disability and the nature and extent of the special education and related services that meet the child's needs. The term means procedures used selectively with an individual child and does not mean basic tests administered to or procedures used with all children.

In Pennsylvania, this evaluation is called a multidisciplinary evaluation (MDE). It is conducted by a multidisciplinary team (MDT), which must include a school psychologist, a teacher and the parent/guardian. The MDE process must be conducted in accordance with specific timelines and use procedural safeguard procedures. For example, tests and procedures used as part of the multidisciplinary evaluation may not be racially and culturally biased.

The MDE process results in a written evaluation report called an (ER). This report makes recommendations about a student's eligibility for special education based on the presence of a disability and the need for specially designed instruction. The evaluation report also makes recommendations for educational programming regardless of whether or not the team recommends that the student is exceptional. Once parent/guardian consent for an evaluation is obtained, the school district has timelines and procedures specified by law, which it must follow.

Parents/Guardians who think their child is a child with a disability may request, at any time that the school district conduct a multidisciplinary evaluation. This request should be made in writing to the Coordinator of Special Education Office. If a parent/guardian makes an oral request for a multidisciplinary evaluation the school district shall provide the parent/guardian with a form for written permission. Instructional Support (IS) activities or MTSS do not serve as a bar to the right of a parent/guardian to request, at any time, including prior to or during the provision of instructional support activities, a multidisciplinary evaluation. For information about procedures applicable to your child, contact the school which your child attends. Telephone numbers and addresses can be found at the end of this notice. Parents/Guardians of preschool age children three through five may request an evaluation in writing by addressing a letter to the Early Intervention Program Supervisor at Midwestern Intermediate Unit IV, 453 Maple Street, Grove City, PA 16127 or by contacting the Preschool Connection at 1-800-345-0033.

Parents/Guardians also have the right to obtain an independent educational evaluation. The school district must provide to parents/guardians, on request, information about where an independent educational evaluation may be obtained.

CONSENT

School entities cannot proceed with an evaluation, or with the initial provision of special education and related services, without the written consent of the parents/guardians. For additional information related to consent, please refer to the Procedural Safeguards Notice which can be found at the PaTTAN website at www.pattan.net. Once written parent/guardian consent is obtained, the school district, intermediate unit or charter school will proceed with the evaluation process. If the parent/guardian disagrees with the evaluation, the parent/guardian can request an independent education evaluation at public expense.

PROGRAM DEVELOPMENT

Once the evaluation process is completed, a team of qualified professionals and the parents/guardians determine whether the child is eligible. If the child is eligible, the individualized education program (IEP) team meets, develops the program, and determines the educational placement. Once the IEP team develops the program, and determines the educational placement, school district staff, intermediate unit staff, or charter school staff will issue a notice of recommended educational placement/prior written notice. Your written consent is required before initial services can be provided. The parent/guardian has the right to revoke consent after initial placement.

EDUCATIONAL PLACEMENT

A single test or procedure may not be the sole factor in determining that a child is exceptional. The IEP team must include a district representative, the student's teacher, special education teacher and the parents/guardians. If the student is determined to be exceptional an IEP will be developed. An IEP describes a student's current educational levels, goals, and objectives, and the individual programs and services, which the

student will receive. IEP's are reviewed on an annual basis. The IEP team will make decisions about the type of services, the level of intervention and the location of intervention. Placement must be made in the least restrictive environment in which the student's needs can be met with special education and related services. All students with disabilities must be educated to the maximum extent appropriate with children who are not disabled.

SERVICES

Students who are not eligible to receive special education programs and services may qualify as protected handicapped students and therefore be protected by other federal and state laws intended to prevent discrimination. The school district must ensure that protected handicapped students have equal opportunity to participate in the school program and extracurricular activities to the maximum extent appropriate for the individual student.

In compliance with state and federal law, the school district will provide to each protected handicapped student without discrimination or cost to the student or family, those related aids, services, or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum extent appropriate to the student's abilities. In order to qualify as a protected handicapped student the child must be of school age with a physical or mental disability, which substantially limits or prohibits participation in or access to an aspect of the school program.

These services and protections for protected handicapped students are distinct from those applicable to all eligible or exceptional students enrolled (or seeking enrollment) in special education programs. The school district or parent/guardian may initiate an evaluation of a student under the laws, which protect handicapped students. Parents/Guardians who wish to have a child evaluated should contact the building principal or the Office of Special Education.

CONFIDENTIALITY

Each school district protects the confidentiality of personally identifiable information regarding its exceptional and protected handicapped students in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) and other applicable federal and state laws.

The Family Education Rights and Privacy Act (FERPA) affords parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. The age of majority in Pennsylvania is 21. These rights are:

The right to inspect and review the student's education records within 45 days of the day the school receives request for access.

Parents/Guardians or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent/guardian or eligible student of the time and place where the records may be inspected.

The right to request the amendment of a student's education records that the parent/guardian or eligible student believes are inaccurate or misleading.

The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent is disclosure to school officials with legitimate education interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her task.

A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

The right to file a complaint with the U.S. Department of Education concerning alleged failure by the school district to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605

The school district maintains its education records in compliance with the guidelines for the collection, maintenance and dissemination of pupil records. Category "A" data which includes the minimal personal data necessary for operation of the school district will be maintained for a minimum time period of a 100 years. Category "B" data which includes verified information of clear importance, but not absolutely necessary to the school, over time, in helping the child or in protecting others will be maintained until the child leaves school. Category "C" data which includes potentially useful information, but not yet verified or clearly needed beyond the immediate present, will be reviewed at least once a year and destroyed as soon as its usefulness has ended.

In addition, the school district may release "directory information" without parent/guardian consent unless a prior written objection to the release of such information is provided to the school district by the parent/guardian. "Directory information" includes the following: student's name, address, telephone listing, date and place of birth, photographs, videotapes, major fields of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, duties of attendance, honors and awards received. If you object to the disclosure of this information, you must submit a written letter of objection to the school district. Written objections for students 3-5 years old should be mailed to Midwestern Intermediate Unit IV at 453 Maple Street, Grove City, PA 16127.

For additional information related to student records, the parent/guardian can refer to the FERPA at the following url: <http://www.ed.gov/policy/gen/quid/fpco/ferpa/index.html>

PROCEDURAL SAFEGUARDS

Procedural safeguards protect the rights of parents/guardians and students. These safeguards include the following:

- Parent/Guardian's consent is always required prior to:
- Conducting an initial (for the first time) evaluation or a reevaluation,
- Initially placing a child with a disability in a special education program,
- Disclosing to unauthorized persons personally identifiable information.

The school district must notify parents/guardians in writing whenever it wants to begin, change, or discontinue special education and related services. Along with this notification, the school district will provide the parents/guardians with a comprehensive, written description of their rights.

Parents/Guardians who disagree with such actions proposed or refused by the school district have the right to request a hearing by an impartial third party using a procedure called due process.

Before a due process hearing will take place, the district must convene a preliminary meeting with the parent/guardian and the relevant member(s) of the IEP team in an attempt to resolve issues without the need for a due process hearing.

Pennsylvania has also made mediation services available throughout the Commonwealth at Commonwealth expense. Mediation services help parents/guardians and agencies involved in a dispute over special education to attempt to reach a mutually agreeable settlement with the assistance of an impartial mediator. Mediation is completely voluntary. Mediation does not deny or delay a party's right to a due process hearing.

School districts also have the right to initiate due process in certain situations. During a due process procedure, a student must remain in the last agreed upon educational placement (a status called pendency). Due process procedures are governed by timelines and procedures in Pennsylvania law. Throughout due process, an attorney may represent parents/guardians.

Due process hearings are oral personal hearings and are open to the public, unless the parents/guardians request a closed hearing. The decision of the hearing officer shall include findings of fact, a discussion, and conclusions of law. The decision of the hearing officer may be appealed to the appropriate court.

Each school district must make available, upon request, printed information regarding special education programs and services and parent/guardian due process rights. This printed information is available from each building principal and/or the Office of Special Education.

MODE OF COMMUNICATION

The content of this notice has been written in a straightforward, simple language. If a person does not understand any of this notice, he or she should contact the school district or IU and request an explanation.

The school district or IU will arrange for an interpreter for a parent/guardian with limited English proficiency. If a parent/guardian is deaf or blind or has no written language, the school district or IU will arrange for communication of this notice in the mode normally used by the parent/guardian (e.g. sign language, Braille, or oral communication).

Title I Information & Compact

Title I is a federally funded supplemental education program that provides financial assistance to school districts to improve educational opportunities for all school-age children. Schools where 40% or more of the population is considered economically disadvantaged, may become a Schoolwide Title I Program. As of 2009-2010, Commodore Perry Elementary is considered a Schoolwide Title I Program. This allows us to design our educational programs to serve all students.
